

MINORITY FRONT MOTION: Oncology Equipment Failure at Addington Hospital

Hon Speaker, I shall move as follows,

Noting that, two women lost their lives last year due to non-functional radiotherapy machines and scanners, poor medical attention and weak information,

Further noting that, poor treatment and diagnosis at our hospitals is unacceptable,

This Hon. House resolves to call on the Hon. MEC Dhlomo to give an executive statement on medical litigation and the department's efforts going forward.
